

Education First collaborated with state leaders and the U.S. Department of Education’s Reform Support Network to compile SLOs from states and districts in a variety of grade and subject areas. The SLO Library is designed as a teaching tool: Each SLO in the library has been annotated to note its strengths and ways it can be improved, and readers are encouraged to extrapolate lessons from these examples to produce new, original, high-quality SLOs. Readers can search for SLOs in the library by state or district, or by grade and subject area.

Click the link below to access the SLO Library.
